

**YOUR SOLUTION FOR COST EFFECTIVENESS  
AND EFFICIENCY IN YOUR COMPANY**

# What is RIMS?

Revere's Inventory Management Solutions (RIMS) is an all encompassing, fully customizable inventory management program that can be simple or intricate, depending on your needs. Common solutions include:

## Storeroom Management

Let Revere manage your stock room on a weekly, bi-weekly, or monthly basis.

- Inventory Analysis
- Dedicated RIMS Specialist
- E Invoicing or EDI Compatible
- Quarterly Review Meetings

### Shelving

We set up customized shelving to suit your needs.

### Barcoding

A bar coded description will be applied to each bin for quick and easy reference.

### Benefits

- Increased Productivity
- Improved Inventory Accuracy
- Shortened Lead Times
- Optimized Stock Rotation and Inventory Turns
- Reduction of Inventory Stock Keeping Units (SKU's)
- Decreased Inventory Costs
- Lower Overhead
- Reduced Paperwork
- Cost Effective
- User Friendly

**There is no need for your staff to put away the product, place orders or check on delivery-let us do it all for you!**

### Before and After Photos

## Kitting

Let Revere pre-package multiple pieces into one convenient package.

### Benefits

- Reduced Shortages
- Lean Efficiencies
- Increase Efficiencies
- Increase Productivity
- Reduce Part Numbers
- Reduce Invoicing Hassles

# Carting

Let Revere pull the items you need for an application from our warehouse and deliver it directly to your plant floor.

- Every item you need for your application is placed on a cart
- Our truck will deliver the cart to your facility
- The cart is taken to the application and utilized
- Empty cart is picked up by our truck

## Benefits

- Reduce Packaging
- Reduce Invoicing
- One Deliverable
- Increase Accuracy
- Increase Productivity

## Listen to what our customers are saying about the RIMS program!

"Revere's Inventory Management Solutions is a great time-saver for us at RDI. As a buyer, I do not have to order the parts needed for each job. Charlie stops in once a week to check our stock, and we get the replenishments usually the next day. When our level of assembly increases, we can temporarily increase the stock level. Of course, when we realize at the last minute that we need some parts, I send Charlie an e-mail and he ships the parts out right away."

Nancy Farrell  
The RDI Group, Inc.

"Since working with Revere on the RIMS program, I have noticed a considerable drop in the number of purchase orders placed by my Purchasing Manager. In fact, my latest calculation shows that we have placed 35% less purchase orders for the 1st 3/4 of 2009. Moreover, it allows the freeing up of valuable time. This is a very productive and irreplaceable program, not only because of the extra time that is saved, but mainly because I have confidence in Charlie (Revere) to bring in the necessary products so critical to our production."

Annette Tuzzolino-Podgorny  
Cazzini Group

"We have been using the RIMS program for the past couple of years and have seen a reduction in cost and labor. The program has allowed our personnel to have time to focus on other areas since this has become a hands free operation for us. The program has reduced the amount of purchase orders that need to be issued as well as the handling costs involved in issuing multiple purchase orders. Also with the RIMS parts being stocked at point of use, this has minimized the amount of handling involved. We have been very pleased with the service level that the VMI program provides as well as benefits of reducing our inventory levels on these items."

George Fairbairn  
Triangle Package Machinery

## Success Stories

We conducted a Cooper Bussmann low-peak fuse conversion that allowed us to reduce the number of SKU's at a facility by 25%, while at the same time updating the facility to a higher level of protection.

We replaced existing 400 watt metal halide lamps with Sylvania MS360 energy saving lamps (360 watt version) without loss of lumen output and created an energy savings of \$13.30 per lamp per year.
