

## Why Revere Electric?

~ Rockwell Automation Distributor and Industrial Control Distributor ~ Over 100 Years Industry Experience ~ Local Partner with National Influence ~ Full Line Electrical Distributor ~ Family Owned and Operated ~ Over 300 Vendors Represented

## PlantPAX

Process Automation System

Scalable, Cost Effective  
 and Remotely Supportable

### Plant Wide Control

PlantPAX taps the latent power on your factory floor and puts it all together in one seamless, infinitely flexible, system-wide solution. Simply put, PlantPAX is the next generation of plant-wide control and information system that meets the latest needs of the entire manufacturing enterprise, in a single, open, universal control platform.

### Protecting Your Investment

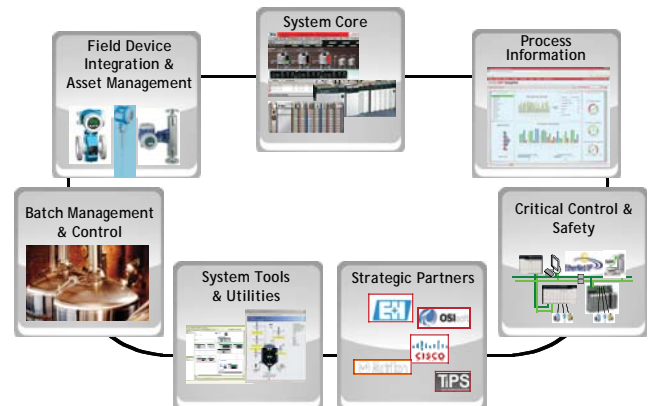

PlantPAX, the innovative process automation system from Rockwell Automation. Many process control manufacturers leave customers behind as systems are expanded and upgraded. Rockwell Automation has a heritage of protecting the investment you make today by providing backwards compatibility of legacy systems.

### Plant Wide Control

The PlantPAX system, powered by Integrated Architecture, brings the industry's most comprehensive, multi-disciplined process control capabilities to the frontline.

### Include PlantPAX In Your Thinking Process!

It's a true engineering breakthrough and a timely business opportunity for anyone who manages a process operation.
