Technical Training Schedule
October 2010 - September 2011
Chicago/Indianapolis District

Rockwell Automation
Global Manufacturing Solutions

Course Title	Course	No. Days	Cost	# Vouchers	OCTOBER				NOVEMBER					DECEMBER				JANUARY					FEBRUARY				MARCH				APRIL				MAY					JUNE				JULY				AUGUST					SEPTEMBER			
					4	11	18	25	1	8	15	22	29	6	13	20	27	3	10	17	24	31	7	14	21	28	7	14	21	28	4	11	18	25	2	9	16	23	30	6	13	20	27	4	11	18	25	1	8	15	22	29	5	12	19	26
RSLogix 5000																																																								
Level 1: RSLogix 5000ControlLogix System Fundamentals	CCP146	2 days	$1,095	3	T-I																					T-C														T-I														T-C		
Level 1: RSLogix 5000 ControlLogix Fundamentals & Troubleshooting	CCP299	4.5 days	$2,190	6				M-C											M-I												M-C																				M-I					
Level 1: RSLogix 5000 CompactLogix Fundamentals and Maintenance	CCP298	4.5	$2,190	5						M-C																																														
PLC-5 to ControlLogix Transitioning	CCP710	2 days	$1,095	3																																																				
Level 2: RSLogix 5000 Basic Ladder Logic Interpretation	**CCCL21**	2 days	$1,095	3	TH-I																																																	TH-C		
Level 2: RSLogix 5000 Basic Ladder Logic Programming	**CCP151**	2 days	$1,095	3																						TH-C														TH-I																
Level 3: RSLogix 5000 Project Development	**CCP143**	4 days	$1,825	5					T-C											T-I												T-C													T-I										
Level 3: RSLogix 5000 ControlLogix Maintenance and Troubleshooting	**CCP153**	4 days	$1,825	5		T-I																					T-C														T-I														T-C	
Level 4: RSLogix 5000 Function Block Programming	**CCP152**	2 days	$1,095	3																				T-I																																
Level 4: Structured Text & Sequencial Function Chart Programming	**CCP154-LD**	2 days	$1,095	3																				TH-I																								T-C								
Introduction to Automation and Integrated Architecture	CIA101	2 days	$1,095	3																													T-I																							
Programmable Controllers																																																							
PLC-5/SLC 500 Fundamentals Using RSLogix	CCP122	2 days	$1,095	3						T-I																								T-C																			W-I			
PLC-5 and RSLogix 5 Advanced Maintenance and Troubleshooting	CCP409	4 days	$1,825	5																																											T-C									
PLC-5 Programming	**CCP410**	4 days	$1,825	5																																									T-C											
PLC-5 Maintenance & Troubleshooting	**CCP412**	4 days	$1,825	5																						T-I																				T-C										
SLC 500 Programming	**CCPS41**	4 days	$1,825	5																															T-C																			T-I		
SLC 500 Advanced Programming	**CCPS42**	4 days	$1,825	5										T-C																																									
SLC 500 Maintenance & Troubleshooting	**CCPS43**	4 days	$1,825	5							T-I																									T-C																			T-I	
Motion Control																																																							
Motion Control Fundamentals	CCN130	2 days	$1,095	3										M-I																																										
Level 4: RSLogix 5000 Motion Programming	**CCN142**	3 days	$1,460	4										W-I																											M-C															
Level 5: RSLogix5000 Advanced Motion Programming	**CCN190-LD**	2 days	$1,095	3																																																				
Ultra 3000 Programming	CCN191-LD	1 day	$730	2																																																				
Kinetix 6000 System Maintenance & Troubleshooting	**CCN200**	2 days	$1,095	3											T-I																										TH-C															
NETWORKS																																																							
IntelliCENTER w/DeviceNet	CCI106-LD	2 days	$1,095	3																																																				
DeviceNet/RSNetWorx Configuration & Troubleshooting	**CCP164**	3 days	$1,460	4																		T-I																T-C														T-I				
ControlNet and RSNetworx (Design and Configuration)	**CCP170**	2 days	$1,095	3																																													T-I							
ControlNet Maintenance & Troubleshooting (Includes Kit)	CCP172	2 days	$1,460	4																T-C																																				
EtherNet/IP Network Design and Configuration	**CCP174**	2 days	$1,095	3																																																				
EtherNet/IP Network Maintenance & Troubleshooting	**CCP176**	2 days	$1,095	3																																																				
EtherNet/IP Network Design and Troubleshooting	**CCP178**	3 days	$1,460	4															T-C																									T-I											
NetLinx Maintenance & Troubleshooting **NEW**	CCP177	4 days	$2,190	6																																														T-I						
AC & DC Drives																																																							
AC/DC Motors and Drives Fundamentals	CCA101	2 days	$1,095	3	T-C																																																			
PowerFlex 700 Configuration & Start Up	CCA161	1 day	$730	2	TH-C																		T-I																				T-C													
PowerFlex 700 700 Vector Control Communications on DeviceNet	**CCA162**	1 day	$730	2																																																			
PowerFlex 700 Maintenance & Troubleshooting	CCA163	1 day	$730	2	F-C																		W-I																				W-C													
PowerFlex 400 AC Drive Field Start-Up for HVAC Applications	CCA171-LD	1 day	$730	2																																																			
PowerFlex 700S Phase II Maintenance & Troubleshooting	**PFX700-S2-LD**	3 days	$1,460	4																																																				
PowerFlex 755 Mainteannce and Troubleshooting	**CCA180**	2 days	$1,095	3																				T-C																																
DC Drives & Automax/DCS Introduction	RE0505	4 days	$1,825	5																																																			
Automax Maintenance & Troubleshooting	**RE0520**	4 days	$1,825	5																																																			
Automax Programming Fundamentals	**RE0523**	4 days	$1,825	5																																																			
VISUALIZATION / SOFTWARE																																																							
PanelView 300/550/600/900/1000/1400	CCP196	2	$1,460	3																								T-I																												
RSView32 Project Development	CCV201	4.5 days	$2,190	6																															M-I																					
FactoryTalk View ME and PanelView Plus Programming	CCV204	4 days	$1,825	5				T-I																																		T-C														
FactoryTalk View SE Architecture	**CCV205-LD**	2 days	$1,095	3																																													T-C							
FactoryTalk SE Software Maintenance & Troubleshooting	CCV206-LD	2 days	$1,095	3																														T-I																						
FactoryTalk View SE Programming	CCV207	4.5 days	$2,190	6																										M-I																					M-C					
FactoryTalk View ME Maintenance & Troubleshooting	CCV209-LD	2 days	$1,095	3																					T-C																															
FactoryTalk Batch Server and Configuration Tools	RS-BATRG	5 days	$2,555	7																																																				
FactoryTalk Batch Phase Design	RS-ABATRG	3 days	$1,825	5																																																				
FactoryTalk Historian Site Edition Configuration & Data Collection	RS-FTHSEC	4 days	$1,825	5																																																				
FactoryTalk AssetCentre Configuration	RS-FTACC	2 days	$1,095	2																																																				
FactoryTalk Transaction Manager	RS-FTTM	3 days	$1,460	4																																																				
FactoryTalk Metrics with Historian Classic Configuration	RS-FTMHCC	4 days	$1,825	5																																																				
Safety/Safety Products																																																							
Vibration Analysis Fundamentals	EK-ICM101	3 days	$1,460	4																																																				
Vibration Analysis Level 1	EK-ICM201	3.5 days	$1,825	5																																																				
Emonitor Basic	EK-ICM141	4 days	$1,825	5																																																				
Emonitor Advanced	EK-ICM221	4 days	$1,825	5																																																				
Foundation Fieldbus Basics	CCPC02-LD	4 days	$1,825	4																																																				
PID Loop Development and Tuning	PRS010	1 day	$730	2																																																				
Process Control System Integration	PRS013	4.5 days	$2,190	6																																																				
Process Control System Modification and Administration	PRS014	4.5 days	$2,190	6																																																				
2030 ElectroGuard Safety Isolation System M&T Fundamentals	SAF-ELE101-LD	1 day	$730	2																																																				
2031 ElectroGuard Safety Isolation System Authorized M&T	**SAF-ELE102-LD**	2 days	$1,095	3																																																				
GuardLogix Application Development	**SAF-LOG101**	2 days	$1,095	3																																					T-C																
GuardLogix Maintenance & Troubleshooting	**SAF-LOG102**	2 days	$1,095	3																																					TH-C																
INDUSTRIAL - QUALITY & MANAGEMENT (EXPANDED PORTFOLIO)																																																							
Basics of Electricity	MFG244	1 day	$730	2																																										T-I									
Industrial Electric Controls Fundamentals	MFG213	4 days	$1,460	4																																																				
Industrial Fluid Power Fundamentals	MFG214	5 days	$1,825	5																																																				
NFPA 70E ARC Flash Compliance	SAF-SFT106	1 day	$365	1											T-C																						T-I																			
NFPA 70E Electrical Safety and ARC Flash Compliance	SAF-SFT112	2 days	$1,095	3																														T-C																						

Course Codes in bold indicate a prerequisite is required - See Training Services Catalog for more information

*** ControlLogix Certificate Program "Core" Course

Contact your local Rockwell Automation Distributor to enrol

AS OF July 20, 2010
