# ON PARADE

**REVERE**  
**ELECTRIC**  
*Messenger of Service* **SUPPLY Co.**

# Safety = Productivity = Profitability

Making sure your facility is safe is not only good for your employees, it's good for your bottom line. Are you in need of a safety program? Some questions to consider are:

1. *Has your facility ever had a safety incident?*
2. *Do you have the required protection to ensure that your employees are safe?*
3. *Do you feel your current safety equipment meets the ever-changing compliance regulations?*
4. *Did you know a single Arc Flash incident could cost a company in excess of one million dollars?*
5. *Wouldn't you feel safer knowing that you had a partner to make sure that you were compliant in electrical safety?*

If any of the questions above are paramount in your mind then let us assist you by introducing you to Safety on Parade; a customized safety solution for every situation.

**Safety is Important to your Employees and Bottom Line!**

- **Plant Safety**

- Rockwell Automation:  
*Relays, Light Curtains, DeviceNet,  
Emergency Stop Devices, Switches*
- Product Offerings  
*Intersafe Boxes, Low-Peak Fuses,  
Disconnects, Fire Alarm Boxes,  
Liquidtight & Conduit Fittings,  
Ground Fault Protection, Lock Out /  
Tag Out, ID - Labeling, Compact  
Fluorescent Lamps, Shatterproof  
Lamps, Power Protection, Explosion  
Proof / Weather Proof Boxes, Covers,  
Fittings*
- Hazardous Location Products & Services
- Short Circuit Current Rating Analysis

- **Protection Equipment**

- Clothing, Coveralls, Jackets, Hoods, Gloves,  
Boots, Sock Hoods

- **Arc Flash**

- Electrical Network & Arc Flash Hazard  
Analysis
- Labeling Requirements
- Electrical Safety Program Development
- Fuse Analysis
- Tools

- **Safety Audits**

- Professional Auditors
- Complete Facility (Floors to Ceiling)
- Federal Guideline Checklist
- Quarterly Follow-Up

- **Machine Safety Services**

- System Integration
- Preventative Maintenance
- Stop Time Measurements
- Safety Distance Calculations
- Probability of Failure on Demand  
Calculations
- Risk Assessment & Risk Reduction Planning
- Technical Specification Development
- Conformity Audits
